

## MEYLE flex discs: high vehicle coverage, convincing quality.

MEYLE flex discs guarantee optimum absorption and elasticity characteristics. The individual components of rubber, fabric and steel sleeves are always perfectly adapted to the particular vehicle:

- Fabric made of sophisticated synthetic fibres
- Highly resilient coils
- Weather and temperature-resistant rubber compounds

75 MEYLE flex discs for 3,343 vehicle models are permanently available. MEYLE repair sets partly cover

several different vehicle applications. That's why in some cases you won't need all the installation material that comes with it. The new MEYLE flex disc for BMW models can be ordered under the following article numbers:

MEYLE no. 314 152 1012 (single part)

MEYLE no. 314 152 1112 (front set)

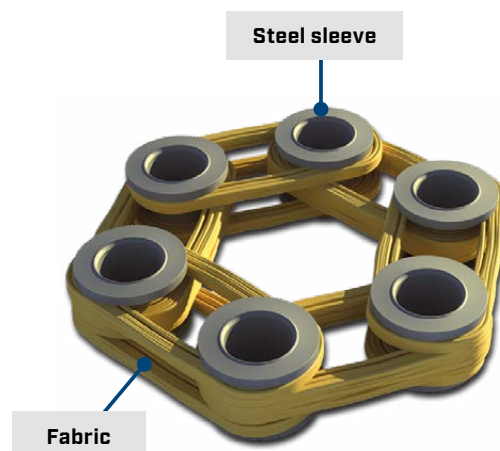

MEYLE no. 314 152 1312 (rear set)

On the following pages you will find an overview of the MEYLE flex disc range.
