Control arm bushing to fit Ford Ka, Fiesta, Escort, Orion

as OE

Problem

Folding of the rubber that leads to tears and premature failure of the bushings

Effect

Vibration and noise from the front axle

Solution

- Innovative design of the rubber bushings in cooperation with the original equipment manufacturer market leader for automotive vibration control components
- Folding of rubber no longer possible
- More even distribution of stresses within the bushings

Advantage

Enhanced part design for significantly longer service life

as OE
